

Legislative Update

March 2008

ITEM 1
DRAFT

This report updates the status of legislation for the 2007–08 legislative session, for which the Commission is considering continuing current positions and recommended positions on newly introduced legislation. The legislation is arranged by Commission priority areas. As the legislative session progresses, staff will apprise the Commission of related changes.

The Commission advises the Governor and the Legislature on higher education policy and fiscal issues. Its primary focus is to ensure that the State's educational resources are used effectively to provide Californians with postsecondary education opportunities. More information about the Commission is available at www.cpec.ca.gov.

Access

AB 100 (Mullin) – As Amended January 24, 2008 – Commission Position – Support (pending): This bill, as amended, proposes the Kindergarten–University Public Education Facilities Bond Act of 2008, to be presented to voters in the November 4, 2008 general election. The bill does not yet specify per-segment allocations in the \$9.1 billion bond. Commission staff worked with the authors to include its findings regarding joint facilities use and capital planning. Staff notes that the Governor's proposed 2008–09 budget calls for a \$14.1 billion 2008 facilities bond to provide \$6.4 billion for K-12 and \$7.7 billion for higher education facilities.

Status: Assembly: Passed. Senate: To Senate Rules for Committee Assignment. 2-Year Bill.

Supporters/Opposition: No official support or opposition.

AB 1409 (Portantino) – As Amended July 18, 2007 – Commission Position – Watch: This bill, as amended, authorizes school districts to enter into partnerships with community college districts to provide college-level courses and career-technical education opportunities to high school students. It allows students to enroll in community college courses upon the recommendation of their principal and with the consent of their parents. This bill limits the percentage of students who can be recommended by their principal for community college summer attendance. The bill specifies that these concurrent students would be counted as community college students for funding purposes, unless a school district has or will receive an allowance or appropriation for their attendance. Recent amendments require the Community Colleges Chancellor's Office to report annually to the Department of Finance on the amount of enrollment generated by each community college district. The bill did not

make its fiscal committee deadline and will likely not move forward in its current form. It is recommended that the Commission continue to watch the bill.

Status: Senate Appropriations Committee: 2-Year Bill.

Supporters/Opposition: No recent official support or opposition.

SB 890 (Scott) – As Amended August 20, 2007 – Commission Position – Watch: This bill, as amended, establishes the Early College Commitment Program to be administered by the Superintendent of Public Instruction until January 1, 2020. This effort is intended to increase college preparation for low-income and underrepresented K–12 students. Participating districts are required to conduct programs to increase high school completion rates and motivate students to take challenging coursework. The bill requires participating districts to provide college information and preparation events for students. It provides that students fulfilling the specified program requirements and enrolling at a community college will be eligible for a Board of Governors fee waiver. The bill requires the Superintendent of Public Instruction to evaluate the program and make a recommendation on whether it should continue. This bill is well-intended and consistent with the Commission’s policies on financial aid outreach and access. While the implementation cost could limit its application, it could provide substantial outreach efforts to students who are unlikely to obtain a higher education. It is recommended that the Commission continue to watch this bill due to its cost implications.

Status: Senate: Passed. Assembly Appropriations Committee: 2-Year Bill.

Supporters: This bill has received a broad base of support from K-12 districts, community college districts, community organizations, unions, and the private and public sector.

A complete list of supporters is available at the Commission’s Web site —

http://www.leginfo.ca.gov/pub/07-08/bill/sen/sb_0851-0900/sb_890_cfa_20070709_171352_asm_comm.html.

Opposition: (June 27, 2007 version) No official opposition.

Affordability

AB 2261 (Ruskin) – As Introduced February 21, 2008 – Commission Position – Support (pending): This bill would authorize the California Community Colleges Board of Governors to use lottery revenues to create a competitive grant program for faculty and staff to develop centers for “open education resources.” The bill defines open education resources as learning materials whose copyrights have expired or that have been released with an intellectual property license that permits their free use. These materials may include entire courses, course materials, textbooks, classroom lecture videos, and other techniques to transmit knowledge. Grant recipients would be selected based on demonstrations of ability to accomplish the goals of the bill. The program is a two-year pilot that requires an outside evaluation and expires on January 1, 2012. The Commission supports innovations to improve access to educational materials and reduce students’ costs. It is recommended that the Commission support this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

AB 2458 (Walters) – As Introduced February 21, 2008 – Commission Position – Watch (pending): This bill would declare the Legislature’s intent to enact legislation that would provide financial rewards for students who graduate early from public colleges and universities. These rewards would be shared

between the student and the institution. This bill has the potential to improve time-to-degree, but more details on costs, scope, and logistics are needed. It is recommended that the Commission watch this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

Performance Assessment

AB 1821 (Portantino) – As Introduced January 18, 2008 – Commission Position – *Watch (pending)*: This bill, as introduced, would place restrictions on the Trustees of the California State University, relating to hiring executive officers, for contracts entered into after January 1, 2009. The bill would prohibit CSU from approving a hiring contract for an executive officer unless that contract and its terms are adopted by resolution in a duly-noticed board meeting. The bill would also place restrictions on how transition pay and trustee professorships are adopted and included in executive compensation agreements. The bill incorporates some of the ideas the Commission supported in the Assemblymember's earlier AB 1413. The bill also includes other provisions specific to CSU governance that the Commission has no adopted positions on.

Status: Assembly Higher Education Committee: Hearing date pending.

Supporters/Opposition: No official support or opposition.

SB 325 (Scott) – As Amended April 9, 2007 – Commission Position – *Support (pending)*:

This bill, as amended, requires the state to establish an accountability framework for public and independent postsecondary education systems. The bill designates the Commission as the central repository of data for the framework and requires the Commission to collect, maintain and display the required data and to provide biennial summary reports. The Commission is undertaking an extensive effort to measure the performance of postsecondary education. Commission staff is working with the author to clarify its role in the bill.

Status: Assembly Higher Education Committee: Hearing Date Pending. 2-Year Bill.

Supporters: California Postsecondary Education Commission, California State University, Latino Coalition for a Healthy California, University of California.

Opposition: No official opposition.

SB 361 (Scott) – As Amended January 7, 2008 – Commission Position – *Support (pending)*:

This bill deletes selected reporting requirements of the California Postsecondary Education Commission from statutes. SB 361 deletes the following reports: adult and continuing education, the financial conditions of independent institutions, evaluations of the Student Opportunity and Access Program (Cal-SOAP), standardized testing, and the Commission's since-replaced "performance indicators." The bill deletes activities that the Commission has replaced with more relevant and purposeful work and helps the Commission by freeing up limited resources for its current adopted priorities. Commission staff worked with Senator Scott to clarify the intent of this bill and continue to work with him on the broader subject of higher education accountability, both in this bill and in SB 325. SB 361 would allow the Commission to pursue higher-priority work by removing some obsolete provisions from our operating statutes.

Status: Senate: Passed. Assembly: First reading. 2-Year Bill.

Supporters/Opposition: No official support or opposition.

ACR 91 (Mendoza) – As Introduced January 24, 2008 – Commission Position – *Watch (pending)*:

This measure would express the intent of the Legislature that the California Community Colleges increase the number of full-time tenured and tenure-track employees. Current regulations governing the community colleges call for 75% of the faculty to be full-time employees, but many colleges have not reached that threshold. This resolution calls for the community colleges to make progress towards that goal and calls for increases in salaries and benefits for part-time and non-tenure-track faculty. The Commission has no position on the “75% Law” but may wish to monitor this proposal because it involves issues of faculty compensation.

Status: Assembly Higher Education Committee: Hearing Date March 4, 2008, tentative.

Supporters/Opposition: No official support or opposition.

Private Postsecondary Education

AB 2746 (Niello) – As Introduced February 22, 2008 – Commission Position – *Watch (pending)*:

This bill would revise the Private Postsecondary and Vocational Education Reform Act of 1989 to the California Private Postsecondary Education Act of 2008. The bill would establish the Bureau for Private Postsecondary Education as a successor agency to the Bureau for Private Postsecondary and Vocational Education, in the Department of Consumer Affairs. The bill’s provisions include the new Bureau’s powers, duties, compliance and enforcement processes, definitions of which schools will be covered, approval processes for schools, school and student rights and responsibilities, and penalties for violations. The bill provides that the Act would be repealed on January 1, 2012. The Commission helped draft and supported the 1989 Act and had conducted reviews of both the former Council and Bureau. It is recommended that the Commission watch this bill.

Status: May be heard in Assembly Higher Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

Private Postsecondary State Oversight

AB 519 (Portantino) – As Amended September 7, 2007 – Commission Policy – *Watch*: This bill, in its original version, would have required the Superintendent of Public Instruction to submit a plan measurement to the Legislature to include data on high school dropouts in the annual Academic Performance Index and to develop a definition of the term “dropout” for that purpose. As substantially amended, it extends limited state oversight of private postsecondary institutions by the Department of Consumer Affairs, from February 1, 2008 to July 1, 2008, with provisions contained in AB 1525 (Cook). It is recommended that the Commission continue to watch this bill.

Status: Senate Inactive File: 2-Year Bill.

Supporters/Opposition: No official supporters or opposition on this version of the measure.

SB 823 (Perata) – As Amended August 20, 2007 – Commission Position – *Watch*: This bill, as amended, proposes to permanently replace the expiring Private Postsecondary Education Reform Act of 1989 with the California Private Postsecondary Education Act of 2007. In the interim, the Act is being

temporarily replaced by the provisions of AB 1525 (Cook). A workgroup of stakeholders has been meeting to develop provisions for SB 823. The Commission has a long history of supporting a healthy private postsecondary sector and effective student protections. It is recommended that the Commission continue to watch this bill.

Status: Assembly Appropriations Committee: Hearing Postponed by Committee. 2-Year Bill.

Supporters: (July 2, 2007 version) Consumer Attorneys of California, Consumer Federation of California, individual letters from 13 students, San Mateo Community College District.

Opposition: (July 2, 2007 version) Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, Association of Independent California Colleges and Universities, California Chamber of Commerce, several community college districts, and several private colleges. A complete list of opposition is available at the Commission's Web site—http://www.leginfo.ca.gov/pub/07-08/bill/sen/sb_0801-0850/sb_823_cfa_20070821_130047_asm_comm.html.

Segmental Mission and Functions

AB 2469 (Brownley) – As Introduced February 21, 2008 – Commission Position – *Support (pending)*: This bill states legislative intent to enact future legislation requiring the Legislative Analyst's Office to convene a working group to review all current reporting requirements applying to postsecondary education systems. This subsequent bill would seek to end all ongoing reporting requirements set in prior budget acts and to establish new, more relevant reports. The working group would include representatives from the fiscal committees in both houses of the Legislature, the Department of Finance, and each of the public postsecondary education systems. The Commission supports elimination obsolete and nonessential reports. This action would allow policymakers to focus on the highest-priority of reports and could lower administrative costs, thus freeing resources for the systems' primary missions. It is recommended that the Commission support this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

AB 2489 (Arambula) – As Introduced February 21, 2008 – Commission Position – *Support, if amended (pending)*: This bill would require the Little Hoover Commission to review the Education Code and eliminate duplicative, unnecessary and obsolete provisions. The Little Hoover Commission would convene a group of stakeholders to define and identify applicable provisions. The bill's current stakeholders include K-12 representatives and legislative and executive branch representatives, but there are no listed representatives from postsecondary education entities. It is recommended that CPEC support this bill, if it is amended to include the Commission as a stakeholder in this project.

Status: May be heard in Assembly Higher Education committee on March 24, 2008.

Supporters/Opposition: No official support or opposition.

SB 1585 (Padilla) – As Introduced February 22, 2008 – Commission Position – *Support (pending)*: The bill would express legislative intent to direct the community colleges to redefine its priorities and goals on student transfer. The bill states that it is the legislature's priority that community colleges increase the number of students who transfer to four-year institutions. The Commission supports increased access and success of community college transfer students. It is recommended that the Commission support this bill.

Status: May be heard in Senate Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

Student Fees and Financial Aid

AB 1279 (Coto) – As Amended February 23, 2008.

Status: Gutted and amended to a non-education bill.

Supporters/Opposition: No official support or opposition.

AB 2082 (Salas) – As Introduced February 19, 2008 – Commission Position – *Support (pending)*:

This bill would add students who had served a minimum of two years in the California National Guard to those receiving first priority for Cal Grant B Entitlement awards. The Cal Grant B program provides access awards for room and board the first year, supplemented by tuition awards in the second year, to the neediest students attending a public or qualifying independent higher education institution. Currently, financially needy students with the highest academic scores have the top priority for these awards. The Commission has historically supported increasing Cal Grant B award levels and extending the tuition and fee component of these awards to all students in their first year of eligibility. It is recommended that the Commission support this bill.

Status: Assembly Higher Education Committee: Hearing Date Pending.

Supporters/Opposition: No official supporters or opposition.

AB 2083 (Núñez) – As Introduced February 19, 2008 – Commission Position – *Support (pending)*:

This bill would require public postsecondary education systems to establish procedures allowing undocumented students who are eligible for resident tuition under provisions of AB 540 (Firebaugh, Chapter 814, Statutes of 2001) access institutional financial aid programs. This bill would ensure that California complies with Federal law requiring that states enact specific legislation to provide eligibility for state financial aid to students who do not have documentation of legal status in the United States. In 2007, the Commission supported SB 1 (Cedillo), the “Dream Act,” which would have provided eligibility for Cal Grant A and B Entitlement awards for students covered under AB 540. The Governor vetoed SB 1 in October 2007. This bill is identical to the proposed SB 1301 (Cedillo). It is recommended that the Commission support this bill.

Status: Assembly Higher Education Committee: Hearing Date Pending.

Supporters/Opposition: No official supporters or opposition.

AB 2365 (De La Torre) – As Introduced February 21, 2008 – Commission Position – *Support (pending)*:

This bill would increase the percentage of new Cal Grant B recipients eligible for tuition and fee awards in their first academic year from the current ceiling of 2% to 25%, beginning in the 2009–10 academic year. The bill would extend this eligibility to all new Cal Grant recipients beginning in the 2012–13 academic year. Currently, these provisions apply only to Cal Grant B recipients enrolling for the first time in a postsecondary institution. Presently, these first-year students are only eligible for access awards (room and board) during their first academic year; the awards do not cover tuition and fees. The Commission has long supported increasing Cal Grant B award levels and increasing the number of recipients who receive fee and tuition awards in their first year of eligibility. It is recommended that the Commission support this bill.

Status: May be heard in Assembly Higher Education committee on March 24, 2008.

Supporters/Opposition: No official support or opposition.

AB 2372 (Coto) – As Introduced February 21, 2008 – Commission Position – *Watch (pending)*:

This bill would establish the College Affordability Act of 2008 and set forth legislative policy on systemwide resident undergraduate student fees at public postsecondary education systems. The bill would establish the 2008–09 fiscal year as a base for the fee levels and prohibit increases from 2009–10 through 2014–05. The bill would limit any subsequent increases to no greater than the annual percentage change in the California Consumer Price Index.

The bill would also establish an income tax rate of 1% on taxable income above \$1,000,000. Receipts would be deposited into the state General Fund, with 60% put into the “College Affordability Fund,” created in this bill for continuous appropriation to CSU and UC. The bill would require these funds to be used to directly offset costs of educating resident undergraduate students and lessen the need for fee increases. The bill creates the College Affordability Funding Accountability Panel to annually review expenditure of these funds. The Commission has no adopted policy regarding tax increases, but the bill is consistent with Commission policy of limiting fee increases and of improving accountability for expenditures of public funds. It is recommended that the Commission watch this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

AB 2496 (Huffman) – As Introduced February 21, 2008 – Commission Position – *Watch (pending)*: This bill would require expand provisions in law that waive college tuition and fees to surviving children and spouses of public safety workers and military personnel to include survivors of firefighters employed by the federal government assigned to work in California. It is recommended that the Commission watch this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

AB 2722 (Duval) – As Introduced February 22, 2008 – Commission Position – *Watch (pending)*:

This bill would delete Education Code sections that required 5% reductions in systemwide resident undergraduate student fees at CSU and UC in the 1998–99 and 1999–2000 fiscal years. These provisions had been adopted in earlier state Budget Acts. This bill would provide the CSU and UC with the discretion to set their mandatory systemwide fees, beginning in 2009–10. The bill would require the systems to maintain these fee levels for a four-year period. Aspects of this bill appear to be in conflict with the Commission’s goal of reducing student fees. However, maintaining a student fee level for a four-year period is consistent with adopted Commission policy. It is recommended that the Commission watch this bill.

Status: May be heard in Assembly Higher Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

AB 2876 (Furutani) – As Introduced February 22, 2008 – Commission Position – *Support (pending)*:

This bill would create the Student Loan Integrity Act and expresses legislative intent regarding standards of ethical behavior for financial aid personnel at California colleges and universities. The bill

would prohibit representatives of postsecondary institutions from engaging in various behaviors regarding student loans and financial aid. The bill would require all high schools and postsecondary institutions to post warnings to students regarding private student loans. The bill contains various sections detailing actions that would be considered illegal representations of student loan provisions. The bill would permit persons aggrieved by violations of these provisions to recover actual and punitive damages from the educational institution, lender, and their representatives found in violation. In past years, Commissioner Schockman expressed concern about how student loans were being presented to students, and the motivation of providers. It is recommended that the Commission support this bill and perhaps become a sponsor.

Status: May be heard in Assembly Higher Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

SB 1158 (Scott) – As Introduced February 6, 2008 – Commission Position – *Support (pending)*:

This bill, as introduced, would provide that a credentialed teacher who is teaching at a public school ranked in Deciles 1 or 2, as measured by the Academic Performance Index, is eligible to enter into an agreement for loan assumption if the teacher has not already participated in the loan assumption program. The bill would limit the number of warrants that can be provided to 400 per year. The bill would limit the number of warrants that can be issued to out-of-state teachers to 50 per year, and would reduce the number of warrants that can be issued to district interns from 500 to 100 per year. It is recommended that the Commission support this bill.

Status: Senate Education Committee: Hearing Date Pending.

Supporters/Opposition: No official supporters or opposition.

SB 1219 (Cedillo) – As Introduced February 14, 2008 – Commission Position – *Watch (pending)*:

This bill would provide a Cal Grant A or B Entitlement award to former members of the U.S. military who were not awarded Cal Grants out of high school, when they enroll in a qualifying postsecondary institution, beginning in the 2009–10 academic year. The bill also requires the Student Aid Commission to make preliminary awards to all currently eligible applicants, and requires participating institutions to conduct random audits to verify that the students who received new and renewal awards meet this provision's eligibility requirements. It is recommended that the Commission watch this bill.

Status: Senate Rules Committee: Awaiting Committee Assignment.

Supporters/Opposition: No official supporters or opposition.

SB 1290 (Wyland) – As Introduced February 19, 2008 – Commission Position – *Watch (pending)*:

This bill would require public postsecondary education systems to waive all mandatory tuition and fees for qualified members of the California National Guard. These waivers would apply to up to five years of education. The waivers would apply to people who had served, or are committed to serving, at least three years, among other qualifying provisions. It is recommended that the Commission watch this bill.

Status: Senate Rules Committee: Awaiting Committee Assignment.

Supporters/Opposition: No official supporters or opposition.

SB 1301 (Cedillo) – As Introduced February 20, 2008 – Commission Position – *Support (pending)*:

This bill would require public postsecondary education systems to establish procedures allowing un-

documented students to eligible for resident tuition under provisions of AB 540 (Firebaugh, Chapter 814, Statutes of 2001) access institutional financial aid programs. This bill would ensure that California complies with Federal law requiring that states enact legislation to provide eligibility for state financial aid to students who do not have documentation of legal status in the United States. In 2007, the Commission supported SB 1 (Cedillo), the “Dream Act,” which would have provided eligibility for Cal Grant A and B Entitlement awards for students covered under AB 540. The Governor vetoed SB 1 in October 2007. This bill is identical to the proposed AB 2083 (Núñez). It is recommended that the Commission support this bill.

Status: Senate Rules Committee: Awaiting Committee Assignment.

Supporters/Opposition: No official supporters or opposition.

SB 1355 (Corbett) – As Introduced February 20, 2008 – Commission Position – *Support (pending)*:

This bill would require public and independent postsecondary institutions to provide prospective students with information that more clearly details the differences in costs and terms between private loans and federal loans for student financial aid. The bill would also require institutions to inform students who are considering taking out private loans of the availability and terms of federal loans prior to their accepting a private loan. The Commission has historically supported improving information to students on financing their college education. It is recommended that the Commission support this bill.

Status: Senate Rules Committee: Awaiting Committee Assignment.

Supporters/Opposition: No official supporters or opposition.

SB 1457 (Steinberg) – As Introduced February 21, 2008 – Commission Position – *Watch (pending)*:

This bill would create the California Scholarshare Advancement Vehicle for Education program (CalSAVE) to fund individual scholarship accounts for beneficiaries as determined by the state’s Scholarshare Investment Board. CalSAVE would be created within the current Golden State Scholarshare Trust program. Under existing law, the Scholarshare Trust program may only accept contributions that are designated to specific individuals. This bill would authorize any entity (person or business) to make designated and undesignated contributions into the CalSAVE account. The bill prioritizes as potential beneficiaries of these accounts foster youth, at-risk youth, people with demonstrated economic need, and people seeking postbaccalaureate courses in areas where the state faces shortages. The students targeted in this bill are among the lowest college-going groups in California. It is recommended that the Commission watch this bill.

Status: Awaiting Committee Assignment.

Supporters/Opposition: No official support or opposition.

SB 1621 (Ashburn) – As Introduced February 22, 2008 – Commission Position – *Support (pending)*:

This bill would make students and graduates of accredited vocational nurse or psychiatric technician programs eligible for the State Nursing Assumption Program of Loans for Education (SNAPLE), if they meet the other program eligibility requirements. Currently, eligible persons who become employed as a full-time nursing faculty at a California college or university are eligible to receive these conditional warrants for loan assumption. This bill expands eligibility to a larger population. The Commission and other researchers have documented the state’s nursing shortage. However, expanding the SNAPLE program will increase program costs. It is recommended that the Commission support this bill.

Status: Awaiting Committee Assignment.

Supporters/Opposition: No official support or opposition.

SB 1656 (Romero) – As Introduced February 22, 2008 – Commission Position – *Support (pending)*: This bill would expand the Assumption Program of Loans for Education (APLE) to include qualified applicants who teach full time at a school for juvenile or adult offenders in a county probation facility or Department of Corrections and Rehabilitation facility. The bill would take effect in the 2009–10 academic year and apply to applicants who agree to teach for at least four consecutive academic years after obtaining a teaching credential from schools covered under this bill. The Commission has supported efforts to improve educational opportunities to underserved and under-performing populations. It is recommended that the Commission support this bill.

Status: May be heard in Senate Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

Workforce Development

AB 2485 (Furutani) – As Introduced February 21, 2008 – Commission Position – *Support (pending)*: This bill declares the Legislature’s intent to enact future legislation requiring postsecondary education systems to work with industry, labor and others to develop a comprehensive plan to improve the quality of workforce education. This idea is consistent with the Commission-sponsored AB 365 (Portantino) from 2007. It is recommended that the Commission support this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

SB 43 (Torlakson) – As Amended January 7, 2008.

Status: Gutted and amended to a non-education bill.

Supporters/Opposition: No official support or opposition.

SB 1288 (Scott) – As Introduced February 19, 2008 – Commission Position – *Watch (pending)*: This bill would authorize the CSU to award the Doctor of Nursing Practice degree. The goals of this degree program would be training of nurses in advanced nursing practice, development of faculty for nursing education programs, and enabling working professionals to earn the degree. Doctoral programs established by CSU under this provision are not to duplicate research-based Ph.D. programs in nursing offered by UC and research institutions. The bill requires CSU to seek non-state funding to establish these programs and to implement this program when sufficient funding has been acquired. It is recommended that the Commission watch this bill.

Status: Assembly Higher Education Committee: Hearing Date Pending.

Supporters/Opposition: No official supporters or opposition.

SB 1393 (Scott) – As Introduced February 21, 2008 – Commission Position – *Watch (pending)*: This bill would tighten restrictions on which courses CSU and the community colleges can require nursing students to take if the student has a bachelor’s degree from a regionally accredited institution. Under current law, these nursing students may only be required to complete coursework needed for licensure as a registered nurse. This bill would specify in law that the *only* courses these students could be required

to take are those needed to prepare for licensure as a registered nurse. This bill is intended to increase the number of students completing nursing education programs. However, its potential effect is unclear. It is recommended that the Commission watch this bill.

Status: May be heard in Senate Education committee on March 25, 2008.

Supporters/Opposition: No official support or opposition.

Other Areas

AB 2277 (Eng) – As Introduced February 21, 2008 – Commission Position – *Watch (pending)*:

This bill would change Proposition 98-required funding for community college districts set forth in subdivision (b) of Section 8 of Article XVI of the California Constitution. The bill would require that 11% of funds annually appropriated for K-12 and community college districts be allocated each fiscal year to community college districts. It would also require that 11% of funds annually appropriated to K-12 and community college districts as repayment of the maintenance factor also be allocated to community college districts. The bill requires these provisions be phased in but does not set a timeline. Because the community colleges' historic average share of revenues included here is less than 10.5%, this bill would represent a shift in Proposition 98 funding. It is recommended that the Commission watch this bill.

Status: May be heard in Senate Education committee on March 24, 2008.

Supporters/Opposition: No official support or opposition.

AB 2296 (Mullin) – As Introduced February 21, 2008 – Commission Position – *Support (pending)*:

This bill would declare the intent of the Legislature to enact legislation to protect the health and safety of people who work with animal subjects. UC specifically asked for the Commission's support on this issue, in light of recent events. It is recommended that the Commission support this bill.

Status: May be heard in Assembly Higher Education committee on March 23, 2008.

Supporters/Opposition: No official support or opposition.

AB 2366 (Portantino) – As Introduced February 21, 2008 – Commission Position – *Support, if amended (pending)*:

This bill would declare legislative intent to enact legislation requiring the California Department of Education to link its California Longitudinal Pupil Achievement Data System (CALPADS) with the workforce data system maintained by the Employment Development Department. CALPADS could then monitor student progression through public elementary and secondary schools and into the workforce. The Commission has supported the creation of such a system which would improve the state's education system and employment training programs. It is recommended that the Commission support this bill if it is amended to add data on students who graduated from California colleges and universities.

Status: May be heard in Assembly Higher Education committee on March 24, 2008.

Supporters/Opposition: No official support or opposition.
